

Korokoro Environmental Group – AGM 2024/25

Treasurer's report for the year ended 31 July 2025

In summary, we have a net gain of **\$6,763.27** over the year.

This records financial contributions only and does not include donations of time, materials and tools, which have been gratefully received.

Financial Activities

Income has come from member subscriptions, donations, bank interest and a grant from GWRC's *2025 Te Awa Kairangi/Hutt Valley Community Environment Fund*.

The grant was received at the end of our financial year with the majority of expenditure planned for future financial years. These funds can only be spent as detailed in the grant agreement. We're required to report expenditure and achievements annually to GWRC.

KEG outgoings have been the annual website domain renewal, purchase of traps and re-registration as an Incorporated Society. The purchase of traps was funded by the grant.

Fifteen households were financial members of KEG during the year (raising \$300). Some households contributed in other (non-financial) ways.

See accounts for full details.

Looking to 2025/26

I suggest that a call for subs is put out shortly, with the cost remaining at \$20 per household.

Households with limited funds can still play a valuable role by devoting time to trapping, weeding, planting and clean up days without being a paid-up member.

The committee should decide whether to increase the number of signatories on the bank account. It is possible to configure the account to require any two from a list of three or more people.
