Korokoro Environment Group

Annual General Meeting Minutes

Date	Sunday, 23 August 2026
Time	3:30-4:40 pm
Venue	Korokoro Playcentre, 38 Singers Road Korokoro

Present

Andre Oliver, Rochelle Oliver, Tessa Roberts, Anthony Davies, Tamsin Falconer, Jenny Black, Olly Betts, Ruth Mansell, Craig Stevenson, Lesley Smith, Tamara Linnholf, Karen Young, Quentin Duthie and Kirstie Knowles.

Last year's Minutes

Previous years AGM minutes were circulated with the first AGM notice. No exceptions were noted.

President's Report

Tamsin, ran through the president report, full copy available here: https://docs.google.com/document/d/1qFPCfldTr83GwSkRR8HLxQhGMIxoJdjG/edit?usp=drive_link&ouid=118189004380398341964&rtpof=true&sd=true

Many activities over the year were noted, contributors were thanked for their contributions. Noteworthy contributions of absent members Clive for supporting planting, Julie for ongoing commitment co-ordinating small mammal monitoring (since 2009!) and Tessa Batty for work redoing logo for, flag website etc.

The President's report was proposed for acceptance.

Motion: Ant moved that the Treasurer's report be accepted.
Outcome: Carried.

Treasurer's Report

The treasurers report, saved to the google drive, at the following link, was reviewed: https://drive.google.com/file/d/1okaW6kvhsuydaQxQIaBolMnj-tQyaFj7/view?usp=drive_link

Main points that were noted:

- We recorded a net loss of $6,307.46 over the 2025/26 year.
- This year's losses were offset by the previous year's result, owing to grant funding.
- Considerable donated time and expertise were not captured in the financial report. All contributors were thanked.
- The group has 22 paid-up households, its highest number to date. Some additional donations were received.
- Most expenses were covered by grant funding. Non-grant expenses included the website and flag.
- Currently Julie and Jenny are the only signatories. Jenny has taken initial steps to add additional signatories to provide redundancy.

It was recommended that the annual membership fee remain at $20.
It was noted that people do not need to be financial members to contribute to the group.

The meeting agreed to retain the membership fee at $20.

Motion: Tamsin moved that the Treasurer's report be accepted.
Outcome: Carried.

Action: A call for membership subscriptions will be circulated (Lesley)

Action: The number of account signatories will be increased to provide greater redundancy (Jenny)

- Rochelle will assist with this process.

Election of Committee Members

Tamsin agreed to remain as President, Jenny as Treasurer and Lesley as Secretary.

No resignations were received. Other committee members confirmed as Julie, Andre, Ant, Olly and Craig. Craig was appointed as a new committee member.

Stream Monitoring Report

The group discussed the stream monitoring report.

Topics raised included:

- Sharing the report more broadly as a priority.

- Investigating Inanga spawning and opportunities to strengthen this.
- Co-relating with conditions in the upper catchment, proposed for retiring grazing
- Urban areas appear to have a greater impact than grazing numbers.
- Community education initiatives, such as an Adopt a Drain programme based on the Hawea model.
- Monitoring nutrients under both low-flow and high-flow conditions.
- Continuing annual sampling, potentially in summar and winter.
- Possible historic landfill sites as a source of contamination.
- Understanding the impact of wastewater overflows by sourcing data from Tiaki Wai.
- Fish passage improvements at the lower dam.
- Installing signage near the rock ramp (proposed) and potentially stream trail (future initiative) for fish and environmental education.
- Reconnecting young people with the natural environment through introduction of play features (some proposed through the new rock ramp fish passage).
- The potential of relocating species from below the dam, where appropriate (long term).
- Advocating for relevant actions through the Belmont Regional Park Master Plan.
- Exploring additional fish passage at the lower dam.
- Andre catching trout as part of monitoring or educational activity.

Proposed Next Steps

The first phase will focus on sharing the stream monitoring document through:

- The group's website.
- Members and the newsletter.
- Relevant organisations including NZTA, Te Hononga and Greater Wellington Regional Council.

Action: Seek approval to publish the draft plan on the KEG website (Lesley and Olly)

Creating a multi-year stream action plan.

- Running a summer Know Your Stream event involving Normandale, Maungaraki and Horokiwi.
- Using this to develop a long term action plan.

Action: Further planning at the next committee meeting.

Plans for 2026/27

The group discussed:

- Further planting supported by the grant
    - Interplanting in gullies with selective natives

    - Planting at the play area
    - Planting around fish passage
- Scheduling planting events well in advance and including backup dates may support attendance at planting dates.
- Promoting events through Instagram, school and other community pages. Rochelle has offered to support marking.
- Planting near the Petone Beach end of the cycleway.
- Scouts could be making seed balls using clay and fertiliser. KEG could offer materials for seed-ball activities.

Action: Tamsin to repost relevant notices on Instagram and other community pages.

Bus Services

Quentin and Kaz provided an update on bus contracts and services.

Key points included:

- Bus contracts are being renewed, in the context of significant cost pressures.
- Routes are being reviewed to identify where demand may justify improvements, including Korokoro 154 route.
- Community members should be encouraged to complete the bus survey.
- Weekend services reportedly average between one and three passengers per bus.
- Information and the survey are available through the Metlink section of the Greater Wellington Regional Council website.
- Connections between the **110** and **154** services highlighted as areas needing attention, particularly for school children.
- The possibility of one service covering all hill suburbs was discussed, and smaller vans.
- Operating the same fleet size across routes may limit flexibility.

Action: Everyone encouraged to complete the bus survey: https://survey.gravitasopg.co.nz/survey/selfserve/219f/g064/260800?list=1&how=4#?

Belmont Regional Park Master Plan

A spatial plan for the coming decades is being developed.

The group noted that:

- A number of workshops have been held, further are proposed focused on specific sites.
- The Greater Wellington Regional Council Master Plan will focus on key issues affecting the park.

ACTIONS: Ant and Tamsin will keep the group updated.
