Korokoro Environmental Group – AGM 2025/26

Treasurer's report for the year ended 31 July 2026

In summary, we have recorded a net loss of **$6,307.46** over the 2025/26 year. The atypical loss is due to the timing of our grant from GWRC's *2025 Te Awa Kairangi/Hutt Valley Community Environment Fund*. We received the grant very near the end of the previous financial year (2024/25) and will receive the next instalment early in the next financial year (2026/27). The net loss of $6307.46 is more than balanced by the 2024/25 net gain of $6763.27.

The accounts only record financial contributions and do not include donations of time, expertise, materials and tools, which have been gratefully received.

Financial Activities

Income has come from member subscriptions, donations, and bank interest.

Most of our outgoings ($6316.84) were paid for by our grant from GWRC (received at the end of the previous financial year). These funds can only be spent as detailed in the grant agreement and were primarily spent on planting. We reported our grant expenditure and achievements to GWRC as required at the end of the year. They have recently confirmed our financial reporting and invited us to submit an invoice for the final instalment of the grant.

Non-grant outgoings have been the annual website domain renewal, membership of the Friends of Belmont Regional Park, and a new KEG flag.

Twenty-two households were financial members of KEG during the year (raising $440). This is a larger membership than we've seen in recent years. Some households contributed with additional donations (financial) and in other (non-financial) ways.

See accounts for full details.

Looking to 2026/27

I suggest that a call for subs is put out shortly, with the cost remaining at $20 per household. Members can choose to pay a donation as well if they wish to.

Households with limited funds can still play a valuable role by devoting time to trapping, weeding, planting and clean up days without being a paid-up member.

The committee plan to increase the number of signatories on the bank account. It is possible to configure the account to require any two from a list of three or more people.
